UO FIP-Emissions from Permitted Facilities-2014-6nov2015.docx

Hi Cindy,

Please see attached for the table (UO_Universe) we started working on yesterday. It changed some from what we had yesterday. I was able to add additional data from 2013 emissions to remove the need for estimations. I updated the word doc from Victoria as well to correlate to the table.

Call if the subtraction I did of the registration emissions isn't clear.

Thanks-

Alexas
